

Goal:

1. Automatically capture purchase information on ticket marketplace websites
  - a. Regularly Used Websites (full list on Asset Closedown Excel Online > Buy List Count tab):

https://www.ticketma	TicketMaster	1855
https://www.axs.com/	AXS	1088
https://www.etix.com	Etix	556
https://concerts.liv	Ticketmaster	191
https://event.etix.c	Etix2	159
https://seatgeek.com	SeatGeek	116
https://www.ticketwe	Ticketweb	85

b. Purchase Information:

- i. Quantity purchased
  - ii. Card used
  - iii. Cost
  - iv. Purchase Date
  - v. Purchase Time
  - vi. Confirmation Number
  - vii. Seat
  - viii. Row
  - ix. Section
  - x. Event Name
    1. Opponent
  - xi. Event Date
    1. Event Time
  - xii. Venue Name
  - xiii. Delivery Method
2. Provide an option to take screenshot of purchase confirmation (listed below) if extension missed initial capture.
  - a. Long-term: Each miss is logged to improve extension's accuracy
    - i. Ex: When manual option button is pressed, website / screenshot information is captured and relayed to algorithm
3. Long-term: Extension tracks total daily screenshots and tickets purchased in toolbar
